

OUR 2050 VISION: Healthy wildlife, healthy planet

OUR PURPOSE:

To advance wildlife health for a healthier future for all

STRATEGIC FRAMEWORK 2025 - 2050

The Strategic Framework will be implemented through a series of time bound plans that drive the national agenda.

Embed One Health

- Drive the integration of wildlife interests into public health and biosecurity decision-making
- Demonstrate the value of One Health and lead by example
- Generate an enabling environment for One Health action by expanding connections that foster multidisciplinary action
- Elevate and support Indigenous voices

Systems-

thinking

Amplify the needs of wildlife

- Advocate for wildlife health
- Be the trusted advisor on wildlife health
- Engage with communities to deliver better wildlife health outcomes
- Visibly elevate the role of wildlife health in achieving optimal health for all
- Champion scientific and culturally informed decision making

Bolster resilience

- Strengthen Australia's wildlife health systems
- Build capacity and capabilities across Australia and our region for wildlife health
- Lead collaboration to address wildlife health risks
- Integrate wildlife into prevention, emergency preparedness, response and recovery frameworks

- Transform Australia's wildlife health data systems to create new knowledge and strengthen future readiness
- Expand strategic intelligence and wildlife data capture to improve prevention and early warning capabilities
- Strengthen relationships between diverse data users and knowledge providers
- Anticipate change, innovate and adapt
